Application No. 10/772,810

AUG 13 2009

Case No. N0187US

Amendments to the Claims:

1-24. (Canceled).

25. (Previously Presented) A computer-readable recording medium encoded with a computer program that performs a method, the method comprising:

obtaining data from a camera removably connected to a computer platform that indicates geographic coordinates associated with each of a plurality of pictures taken by the camera;

requesting from a remotely located map service server a municipality name corresponding to the geographic coordinates associated with each of the plurality of pictures, the remotely located map service server including data that indicates whether a landmark is observable from specific geographic coordinates; and

if the geographic coordinates associated with at least one of the plurality of pictures are determined to be coordinates in which the landmark is observable, receiving data indicating a name of the landmark.

26. (Previously Presented) The method of Claim 25 wherein the camera is removably connected to the computer platform with a USB cable.

27. (Previously Presented) The method of Claim 25 wherein the camera is removably connected to the computer platform with a wireless connection.

28-29. (Canceled).
